Puerto Los Cabos Golf & Spa Resort ✦

Secrets Puerto Los Cabos - This resort if Breathless's older sister. It is going to be a little quieter and more relaxing than Breathless, but they have a great activities team with things to do throughout the day. This is an oceanfront resort, but again, their beach is not swimmable.
This resort will stand out with its amazing service from the employees.

There is one large main pool with the swim-up bar and activities throughout the day. (there is another pool just for preferred club) There is also a golf course right next door to this resort.

If this resort was closer to town, this would be my second choice, the only reason it is third is because the location is farther away (about 30 min drive to town)

They also do not have any weekend ceremony dates available for May or June 2025. I know that you wanted to have the ceremony on a weekend day, so if that is not flexible at all, this resort will not work for us.
